

BALLIOL COLLEGE
OXFORD

THE J T HAMILTON SCHOLARSHIP IN PHYSICS

The College seeks to elect as a J T Hamilton scholar in Physics a student who has an offer of admission to Oxford University and a place at Balliol College to read for a higher degree in Physics commencing in the academic year 2012-2013.

In appropriate cases, the Scholarships may be awarded in conjunction with a University Clarendon Fund Award. In all cases they may be awarded with another University or other award, or may be awarded separately. When awarded jointly with the Clarendon Fund, the Scholarship covers all University and College fees and an additional grant for living expenses. Other awards will be up to UK Research Council maintenance rates for the duration of the Scholar's course, subject to satisfactory academic progress being made.

Applicants must apply to the University of Oxford for admission to a higher degree by the University's second deadline in January, and must apply for any University scholarship for which they are eligible.

The Scholarships will normally be awarded to applicants to Balliol (including those who have expressed no college preference but are considered first by Balliol).
