

### Visit to Balliol College, Oxford University

On the Oxford trip we were given an insight into what university is like and what happens during an average day there.

We were first given a tour of the college which included seeing the Great Hall, Library and the recreation areas. After the tour we were taken to a room where a member of the staff told us about university and how getting a degree would make finding a job a lot easier.

Then we were given a lunch from the college's own cafeteria and we sat in the Great Hall. It reminded me of Hogwarts from Harry Potter. Finally, we were taken to the librarian and we were given a number of quizzes about the books in the library.

This trip provided us with more knowledge of what university is like and how that going to a university would help your future a lot.

“This trip has persuaded me to go to university and has inspired me to try my hardest to get where I want to be”
